Information

WARNING: Never push objects of any kind into this product through the ventilation openings in the case. Doing so may be dangerous and damage your light.

Important Handling Information

NOTICE: Failure to follow these handling instructions could result in damage to your Aqua mini or other property.

Carrying your Aqua mini Before you move your Aqua mini, shut it down and disconnect all cables and cords connected to it.

Using power cord Never force a connector into a port. Don't put the power cord into your tank when it connected.

When you Setup your Aqua mini please make sure that there are no loose items (such as paper, metal or other) that could accidentally get inside the Aqua mini through vent openings or get stuck inside a port.

Storing your Aqua mini If you are going to store your Aqua mini for an extended period of time, keep it in a cool location (ideally, 71° F or 22° C).

When cleaning the outside of your Aqua mini, first shut down your Aqua mini and unplug the power cord. Then use a damp, soft, lint-free cloth to clean the lamp exterior. Avoid getting moisture in any openings. Do not spray liquid directly on the lamp. Do not use aerosol sprays, solvents, or abrasives that might damage the finish.

MicMol and the Environment

MicMol. recognizes its responsibility to minimize the environmental impact of its operations and products.

Items	Value
Maximum continuous power	30W
LEDs	CREE LEDs
Line voltage	100-240V AC
